

Gabriel Li

I am super fit for Bloomsday because

I eat right and I love to run for

fun. I eat really good food for my

body to make my body feel good. Bad

food makes my body feel tired and grumpy.

If I eat well I can do well at school.

Running makes me more strong, by making my

heart and muscles strong. Running makes me

happy all day long. I want to eat well and run

for the rest of my life so that I am happy for

the rest of my life.
